

WINS

A stylized flower logo is positioned between the letters 'i' and 'N'. The flower has a central circular core with concentric rings, from which five petals emerge. The petals are arranged in a circular pattern, with the top petal being dark blue, the top-right and bottom-right petals being light blue, and the bottom-left and top-left petals being a medium blue. The stem of the flower is a thick, dark blue vertical line that passes through the center of the flower's core.
